- 1 **Message from the President**
- 2 **Solenco – German consolidation**
- 3 **Upcoming Initiatives**

Title

Solar Energy, 24 hours, even in winter. On or off-grid. Based on Hydrogen Technology

Duration

April 2020 – December 2022

Main objectives

Manufacturing and Commercialisation of Solenco Powerbox

Dear Reader

We are pleased to present you the fifteenth Solenco Power Newsletter from October 2022.

With the project's Newsletter you receive the latest information about the European Project SOLENCO and its main objective "The Solenco Powerbox", Manufacturing and Commercial roll-out.

Further, we will keep you up to date about the Project Activities and initiatives related to Solenco.

In the fifteenth issue of Solenco Power's Newsletter, we share with you the consolidation of our company in Germany.

For more information and news about Solenco, please visit our website:

<https://www.solencopower.com/>

We hope you will enjoy reading this fifteenth issue.

Your feedback and comments are always welcome!

Message from the President

During this August – September 2022 period, Solenco was selected to present at this year's edition of Tech Tour NRW Green 2022.

Solenco was among the 30 most promising companies chosen from 70+ nominations and 50 applications received.

This event supports the expansion of Solenco's activities in the German market and increases our visibility.

Solenco – German consolidation

“Our goal is to provide each and every single real estate with a green and affordable solution allowing to minimize gas and electricity bills of their users, while driving sustainable world electrification by the mass uptake of wind and solar PV.”

Dr. Hugo Vandendorre
Founder & CEO

On Wednesday 28th of September, Rik Vaesen and Francisco Lopéz García presented our company, Solenco Power, at the Tech Tour NRW Green 2022 Programme in Cologne, Germany.

Solenco Power was selected as one of the top Tech Tour Programme Award Winners in 2022 and is invited as a Presenting Company at Tech Tour Sustainability 22 – a flagship event in Sustainability, taking place with an onsite event on the 23rd of November 2022 in Essen, Germany.

The Tech Tour Sustainability 22 brings together 250+ participants, including investors, corporates, experts, entrepreneurs, and guests, featuring the top 100 presenting companies and Award Winners in the sustainability sector from different Tech Tour events that have been held in 2022.

Solenco's presentation was a success, and we won the award for Best Presenting Company:

Upcoming Initiatives

In the next Newsletter we will share details of the future of the Solenco Powerbox, and its scalability enhancing its repercussion in residential, commercial, and industrial sectors.

The Solenco Project is funded by the European Union's Horizon 2020 research and innovation programme under grant agreement N° 946442
